

Meeting with Mayor Boyle gives chance to air views

By Gary DiSilvestro

In a meeting with Mayor Boyle Dec. 11 about the parking problem at UNO, City Council President Bernie Simon said the discussion failed to recognize those most affected by the situation — the students.

"I'm tired of study, study, study," said Simon. "As for budget problems we will always have those. Let's get on with it."

Simon said the parking problem could not be solved by "pricing the student out of a parking space."

The purpose of the meeting was to bring all concerned parties together to hear and discuss a

proposal for solving the UNO parking dilemma. The proposal was prepared by Barbara Wright, a Boyle aide, and is based in part on the parking plan at the University of Wisconsin-Milwaukee (UWM).

Among those present were members of the NU Board of Regents, the Omaha City Council, UNO Student Government and administration, neighborhood leaders and other officials.

"Parking at UNO is not just a UNO problem," said Boyle. Many of the suggestions in the proposal are matters that city government has no authority to influence, such

as parking fees and university expansion policy.

The proposal also calls for high-rise parking at UNO which Wright said would be a "very efficient use of land."

Wright said the high-rise facility could be constructed at a cost of \$4,500 per stall. She proposed a structure for 800 cars at a cost of \$3.6 million.

She said the UWM campus is "comparable" to the UNO campus and that the parking situation there is better than at UNO.

"This plan is a first step in beginning to work together," said Boyle. "The city administration stands

ready to help in any way we can."

The mayor said the plan may need "fine-tuning."

State Sen. Peter Hoagland called the UNO parking and expansion proposals "among the five or six most difficult issues in the legislature."

Hoagland said chances are not good for the city to get any state funding to help subsidize a mass transit program for UNO students. He said a study should be conducted on long-range parking needs at UNO.

Robert Prokop of Wilbur, chairman of the Board of Regents, said "We could study this thing to death and that isn't going to solve anything. If we have to do it (take new land) by eminent domain, that is the board's intent. As a separate state entity we will make our own decisions."

Omaha Regent James Moylan said he did not consider the regents' proposal for land acquisition "expansion," but rather "filling in the spaces."

Thompson nets hoop

The UNO Mavericks have been flying high of late, and this has been one of the reasons why. Sophomore Dean Thompson (15) was the Mavericks high scorer for the North Central Conference holiday tournament with 44 points. He was also named to the tournament all-team.

Their first win was over the South Dakota Coyotes. The Coyotes kept UNO out of the finals in last year's tournament when Barry Glanzer almost single-handedly destroyed them by scoring 42 points. This time the stingy Mav defense held him to three points for the game.

The second game was against Augustana, last year's tournament champions, and the Mavs squeezed out a 57-55 win over the stubborn Augies.

In the championship game, UNO met the fourth-ranked North Dakota Sioux. The game was expected to be a real battle. The Mavs were behind most of the first half.

In the second half the Mavs scored 13 unanswered points to take a 49-36 lead with a little more than nine minutes to play. At the end it was UNO 74, North Dakota 66.

Book prices stabilize in NU system

By Y. E. Bursztyn

Text book prices are an expense that students cannot avoid. The price of new books can range anywhere from down-to-earth to somewhere in the upper stratosphere.

In the fall of 1978, the Gateway compared UNO's book prices with those of UNL and Creighton University. At that time, UNO's prices for identical books were consistently higher. For example: The Associated Press Stylebook was \$4.80 at UNO and \$3.50 at UNL and Creighton. The CPA Examination and Review was \$17.95 at UNO and \$2 less at UNL and Creighton.

A random sample of text books conducted by the Gateway last week,

however, showed prices at UNO for the current semester are equivalent to the Nebraska Bookstore at UNL. For example: McConnell's Economics, eighth ed., is \$20.95 at both UNO and UNL. Morrison and Boyd's Organic Chemistry, third edition, is \$30.95 at both campuses.

What accounts for any fluctuation in prices?

Mike Schmidt, UNO bookstore manager, said the bookstore doesn't have anything to do with the price of their merchandise. "We charge list price," said Schmidt, "and the publishers decide what list price is."

It is generally the practice of each department chairman to order text books for his or her depart-

ment, according to Donald A. Nielsen, professor of real estate and land use economics, and former chairperson of the department.

Nielsen said department chairmen look for quality, accuracy, and timeliness in selecting new books. Price is not a significant factor, he said.

The price of text is usually not listed on a publisher's brochure. The instructor is often the last one to know how much a text actually cost, said Nielsen.

Mark Smith, a UNO junior majoring in political science, said he took a class last semester in which the professor used a book that was poor in all aspects. "The book was \$30," said Smith, "and it

was hopeless; it was a ripoff."

At the end of the semester, Smith said, the professor "told us he had bad and good news. The bad news was that he wouldn't be using this awful text next semester. The good news was that he wasn't going to tell the bookstore until we had a chance to sell the books back."

One noticeable difference between UNO's bookstore and UNL's privately-owned store is the large quantity of used books the latter has in stock.

Nebraska Bookstore Manager Mark Oppegard said his bookstore sells more used books than any other store in the country. He added that the store actively pursues a used book market. The store is constantly checking with used book wholesalers around the country, he said.

This enables students to buy used books at discount prices and sell them back for 60 percent of the new book price. Oppegard said that this system allows students to use a book during the semester and lose only \$4 or \$5 when selling it back.

UNO bookstore policy is to buy back new books at 50 percent of the original price. Schmidt said he consults with used book wholesalers when "we have the time."

Oppegard said that the reason the UNL bookstore can offer 10 percent more when buying books back and do more volume purchasing of used books, is that private enterprise is more efficient.

Books 'n Bucks... The student's first lesson in Economics 101 comes when he enters the book store.

Wednesday

Campus Recreation Superstar insert inside. See pages 5-8.

Campus reacts to Boyle parking proposal. Turn to page 2.

Will apartments be constructed around UNO? More information on page 9.

Nicholas Von Hoffman blasts the new farm bill in his editorial on page 4.

Following is an outline of the proposal for UNO parking as presented by mayoral staff member Barbara Wright:

- I. A. A study of the needs of the UNO student body, to be conducted by the UNO Center for Applied Urban Research (CAUR).
- B. Increase in direct bus service by MAT to and from the campus.
- C. Increase use of remote parking lots, including a proposal to purchase the former Prom Townhouse property at 69th and Dodge Streets.
- D. The construction of a parking garage behind Arts and Sciences Hall. The proposal suggests immediate funding from the state legislature and an escalating fee to discourage long-term parking. The plan also says fees should be charged during activities such as high school football games.
- E. MAT should operate all shuttle bus services to campus. No shuttle bus fee should be charged for use of remote locations. Any

cost should be supported by the new transit revenues as outlined in the plan.

- F. Reduced fare tickets should be made available for students using regular MAT routes and should be subsidized by the new transit revenue.
- G. The proper promotion of this plan is imperative for its success. The university, MAT, and city representatives should jointly design the advertising and promotion plan.
- II. A. Increase the current \$12 parking permit fee to \$100. A breakdown of costs shows that for 170 visits (five visits per week) to campus over the school year, the charge per day would be 59 cents. For one visit per week the charge would be \$2.94 per day. At the \$12 rate it is seven cents a day.

If permit fees were raised, there would still be free parking at satellite locations. If the university were to

sell only 4,000 parking permits at \$100, it would possibly realize a revenue increase of \$300,000.

- B. A \$2 fee would be added to the matriculation fee per semester for the transit program. This could provide \$60,000 per year.
- C. Fees for parking violations would be raised to discourage illegal parking. There would be an improved method for collecting fines.
- D. Additional funds for the transit subsidy would be requested from the state legislature as deemed necessary following the cost analysis for this program.
- E. All lots would have controlled parking during special events. Different rates could be charged for lots with closer proximity to facilities.
- III. Control parking in park and neighborhood areas because parking in such areas discourages use of transit, satellite parking areas and purchase of UNO parking permits. For

these reasons, the following is recommended:

- A. Closing of lower roads in Elmwood park. Has been initially approved by Mayor Boyle.
- B. Limit student parking in park area lot to 30 minutes. Post a two-hour limit in the Pine Road located east of campus.
- C. Limit residential parking. City ordinance would require agreement of 51 percent of residents.
- IV. A. Limit distribution of permits. Upperclassmen and full-time working students having priority.
- B. Change class schedules to reduce peak parking demand.
- D. Increase number of compact lots.
- E. Develop circulation roads to improve traffic movement on campus.
- F. Include parking space for all new buildings.
- G. Encourage use of Peter Kiewit Conference Center to relieve pressure on main campus.
- H. Increase use of rhino boot to ensure parking fine recovery.

Boyle plan unclear says student regent

By Steven Penn

UNO Student President/Regent Florene Langford said Sunday that Mayor Boyle's proposed solution to the parking problem is not clear and leaves many questions unanswered.

"How safe will the remote parking sites be?" she asked. Langford said she is concerned about the possibility of vandalism and rape in remote parking areas.

Aside from the safety considerations of the remote parking areas, Langford said many other points in the mayor's plan are unclear.

The current plan does not mention anything about land acquisition west of UNO, and Langford said she wondered if the proposal is a substitute for acquiring such land or if it is in conjunction with the purchase of land.

"He needs to clarify himself," said Langford of Boyle. "Is it (the proposal) short-term, long-term or is this it, period?"

When asked if the plan considers the needs of the students, Langford replied, "No. The mayor's administration did not invite any student participation. We had to impose ourselves at various meetings. It is inexcusable to have it shoved down our throats."

Langford also said she did not understand why voting members of the NU Board of Regents were invited to the meetings, but not the student regents.

Although Langford said she agrees with most of the plan, she said parts of it are questionable.

"I am strongly opposed to a \$100 parking permit fee," she said. Many students cannot afford to pay such a high fee, she

(continued on page 3)

Will Plan

Parking Problem?

Poll said 90% oppose fee hike

Nine out of 10 UNO students polled by the Gateway last week are opposed to Mayor Mike Boyle's suggestion that UNO raise its yearly parking fee to \$100.

By the same margin, students polled said they would not purchase a parking sticker if the fee was boosted to the three-figure level.

Boyle suggested the increase as part of a larger package of proposals aimed at reducing the current parking problem.

Ninety percent of the students polled said they disapprove of the Boyle proposal, compared to 5 percent who approved. Five percent of the respondents were undecided.

Asked if they would purchase a \$100 parking sticker, 91 percent of the respondents said they would not. Five percent said they would, with 4 percent undecided.

The poll was taken over a three-day period, Jan. 7-9.

Students were polled by Gateway staff members as they left registration at the Fieldhouse. With a total of 759 respondents, a margin of error is projected at plus or minus 4 percentage points.

Following is a breakdown of the results. Questions: "Some officials have proposed an increase in UNO parking fees from \$12 to \$100 a year as a means of helping solve the UNO parking problem. Do you approve or disapprove of this proposal?"

Approve	5%
Disapprove	90%
Undecided	5%

Question: "If the parking fee is raised to \$100, would you or would you not purchase a yearly parking sticker?"

Would	5%
Would not	91%
Undecided	4%

Rowley: Boyle plan ignores students

By Joseph Brennan

UNO Student Senate Speaker Frank Rowley described a parking proposal submitted by Mayor Mike Boyle Dec. 11 as "a plan written in isolation."

In an interview with the Gateway, Rowley referred to the "Campus Transit and Parking Plan For The University of Nebraska at Omaha" compiled by Boyle aide Barbara Wright, which suggested solutions to the UNO parking problem. Among suggestions proposed are increased use of remote parking and shuttle bus service, increased parking fees and fines, and construction of a high-rise parking facility.

"I looked over Barbara Wright's proposal. It has the characteristics of a plan written in isolation," said Rowley.

Rowley said he supported some of the specific proposals in the plan — such as a proposed study by the Center for Applied Urban Research of student demographics, construction of a "circulation road" to ease traffic congestion on campus, construction of more pedestrian walkways, inclusion of parking facilities in any future buildings constructed, and charging on-campus parkers for special events. But he said that in general, the study ignored persons at UNO. "I don't consider that it even looked at the problems of the students."

He added that the proposal suffers from an incorrect assumption that UNO is analogous to the University of Wisconsin-Milwaukee (UWM), an institution cited in the report as an example of how an urban university has dealt with its parking problem.

The 15-page report cites the coopera-

Speaker criticizes 'a plan written in isolation'

(continued from page 2)

tive venture at UWM between the state, city, and university in designing a plan relying heavily on remote parking, shuttle bus service, and reduced fares for students riding on the regular Milwaukee transit system. According to the mayor's report, the UWM plan is funded by the state and revenue from parking permits and fines, student transit fees, and structured and metered parking.

Rowley said, however, that the mayor's plan did not include information on the "on-going costs of remote parking" at UWM. He said he telephoned the UWM Student Association and learned that the widespread use of remote parking and bus service, begun in 1973, apparently led to a problem of increased rapes and vandalism to students' cars.

To rectify the problem, Rowley said, UWM now has armed campus security officers, a student volunteer service which helps patrol lots, increased patrols

of the lots by Milwaukee police, lighted parking lots, and telephones in the lots. In addition, he said the student government at UWM now funds a special transit service for women. He said all of these measures have added to the cost of the parking plan.

Wright was on vacation and unavailable for comment.

The report said that 50 percent of UWM students used city transit in 1981, compared to 12 percent in 1972.

The report also said if a similar plan was adopted by UNO, Metro Area Transit (MAT) would operate all shuttle buses with no fee charged to students, although students would be required to pay a \$2 transit fee each semester.

Rowley said he favored remote parking only as "a short-term solution." He added: "Any remote parking — including Ak-Sar-Ben — which is out of control of the university, is unacceptable" as a permanent solution.

He said such parking causes too many security problems, especially for night students, and that he feared students' cars being damaged or stolen.

Rowley, who was trained in logistics while in the Air Force, said the combined problems of cost and security make remote parking a poor solution.

"We don't need to purposely endanger our students," he said.

As for the proposed increase of shuttle buses and regular MAT buses, Rowley said he was skeptical of the plan's emphasis on no fares for students for the former, and reduced fares for the latter. He said costs of such transit would "either directly or eventually be paid by the students. Any time you funnel money through a bureaucracy, some of it is lost through administrative costs."

He said it also would be unfair to expect students who work and attend school to use regular transit, although the plan calls for express bus service "from areas of dense student population."

Rowley was also unenthusiastic about increasing parking permit fees to \$100. "For a working person, the fee is extremely reasonable. For a student, it's the cost of one class and books."

Rowley said that any parking solution is going to cost students money, but that the per-student cost should be kept "at the absolute minimum."

Rowley also disagreed with other elements of the plan, including the restriction of neighborhood parking, an increase in compact parking on existing lots, and increased classes at the Peter Kiewit Conference Center (PKCC) downtown.

The plan calls for eventually limiting parking by students on residential streets, if so desired by 51 percent of the residents in the neighborhood. Rowley said he doesn't like neighborhood parking because it's dangerous but that he would continue to fight for it until "the university has the wherewithal to solve the (parking) problem."

He also said that compact parking lots might be a good solution in five or 10 years, but that students today, because of their economic situation, tend to drive older and larger cars.

Rowley said scheduling classes at PKCC would only be "transferring the problem downtown," noting that parking space is difficult to find there.

Rowley also criticized limiting the number of parking permits to 4,000. All students should have an equal chance to purchase a permit, he said, and because one is a freshman or a part-time student, one should not be restricted in his or her access to on-campus parking.

Rowley said he hoped the Student Senate would make a statement about the plan before its Jan. 21 meeting.

'Super' addresses graduates: 'nurture the continuance of UNO'

(continued from page 2)

added. The Boyle proposal advocates the construction of one high-rise parking garage and a transit service to campus. Routes for the transit service are to be determined based on a demographic study of "areas of dense student population," according to the current plan.

Although Langford says she favors "several high-rises" and the acquisition of land for their construction, she said subsidy of the land for the garages, the structures themselves and the transit service is "doubtful" in view of continuing cutbacks in administration funding.

Langford said she also objects to the part of the Boyle plan which would increase compact car parking lots. "I don't think most students have recent model (compact) cars," she said. According to

an estimate given by campus security last year, approximately 35 percent of UNO students drive compact cars.

In response to the part of the proposal which would give upperclassmen and full-time working students preference for parking permits, Langford said, "I don't see where that will help. I don't see it as feasible and I don't think it's fair."

Langford said the overall plan is good but that it "should be looked at as a short-term plan." She said that because of increased enrollment in the past few years, and considering the economics of the proposal "as a long-term plan, it is unfeasible."

She added that a review of the proposal will be the first order of business considered by the Student Senate at their first meeting of the semester Thursday.

Mayor unveils parking plan

(continued from page 1)

ing neighborhood residents, said the expansion was not good for the city or UNO students. She said the residents support construction of a parking garage on the east side of campus.

UNO Student President/Regent Florene Langford said she does not think anyone should speak for students if they are not going to ask students their opinions. She called the proposal for the \$100 fee "unconscionable," and said remote parking might be "unsafe."

Councilwoman Sylvia Wagner said she supports the idea of a remote parking lot at the location of the former Prom Townhouse, 69th and Dodge Streets.

"These are healthy young people," said Wagner. "They can walk."

Councilman Walt Calinger said it is "simplistic to say 'use all your funds for education and none for parking.'"

Chris Condon, a UNO graduate student, said UNO should "take the forefront in new ideas" and construct underground parking in the proposed laboratory science building.

Batt said students should be consulted in the future with regard to any parking discussion.

"Students are not agents of destruction," said Batt. "They don't want a massive concrete lot." She said the Boyle proposal is a "marvelous" starting point, and that she is glad

all sides are working together to "hammer out a solution."

Calinger, a UNO graduate student majoring in educational administration, said a "realistic" resolution to the expansion argument would be to allow UNO to expand with a long-term guarantee, such as a restrictive covenant that UNO would not go beyond 66th Street.

Guy Mockelman, a University Division representative on the Student Senate, said he doesn't think it is a good idea to rely totally on mass transit. He said the Boyle proposal is a start and "we should all work together" for a solution.

Boyle will meet with campus leaders about parking Jan. 22.

Crime? Crisis? Dial 2911: new emergency hotline

If you saw a crime in progress at UNO, what would you do?

Campus Security wants you to call them at their new emergency extension, 2911.

The new number has been on reserve "for some time," according to Dave Castilow, assistant director of Campus Security.

The extension is connected to a special phone in the security office, which has a light and distinctive ring. Security staff members have been instructed to give top priority to incoming calls

on the line.

"The difference between us and other 911 systems is that we will handle only emergency calls," said Castilow.

Castilow said about 75 percent of 911 calls around the country are non-emergency. If a call to 2911 is not an emergency, the caller will be told to call back on the usual security extension, 2648.

Crimes in progress, personal injury problems, and fires are among the items that should be called into the new number, said

Castilow.

Security has also announced the reclassification of two parking lots.

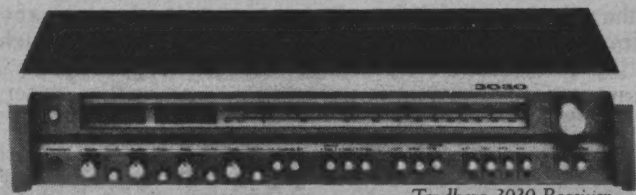

Lot Y, directly south of the library, is now open for student parking after 3 p.m. on weekdays.

Lots A and D, behind Arts and Sciences Hall, will be merged. The resulting Lot D will be open for student parking at night as soon as new signs can be erected.

Both changes, said Castilow, came from suggestions of security officers who work the late afternoon shift.

Gateway tradition: time for a change

The editor traditionally begins the semester with an editorial on one of two subjects: parking or the responsibility of the campus paper.

The paper has a tradition of being the brunt of criticism from small groups of fanatics who either feel they didn't get the ink they deserved or that the free press is just an ideal talked about by politicians on July 4.

The parking situation at UNO is also a tradition. Traditionally a mess. Although tradition is a nice thing, change in both of these areas is the preferred option.

It remains the responsibility of the editor and the staff of this paper to pursue every effort to provide fair, accurate and timely coverage of the people, events and issues that affect UNO students. We will strive to meet this task in a manner which is both enlightening and entertaining.

This is a promise we make to ourselves and a contract we make with the readers.

We applaud the action taken by Mayor Mike Boyle in the sense that it is time that various governmental chiefs meet and try to solve — not pontificate about — the UNO parking problem.

We hope the individuals involved in the decision-making process are sincere in their stated desire of reaching a just compromise. Nobody should expect to get all the marbles, no matter what size their hand.

Thank you Omaha City Council President Bernie Simon, who reminded the assembled dignitaries that students are an interested party in any parking discussion. If anyone thinks students are not concerned, let them know we have all just returned from a rather lengthy break.

We hope this is an active semester for Student Government and student involvement.

A special word of criticism is reserved for Sylvia Wagner, who is, unfortunately, an Omaha city councilwoman. When Student President/Regent Florene Langford mentioned the security problems which might accompany remote parking, Wagner had a sharp answer:

"The girl who was raped (a UNO student on the way to her car in Elmwood Park) made an unwise decision."

It is tempting to say that the voters of the Sixth District made an unwise decision.

As students and as citizens you have not only the opportunity, but the responsibility to let your elected representatives — in Student Government, city hall, and the legislature — know what your opinion is on this ever-important issue.

It is not just politics. It is a case of economics — yours.

Farming flounders under bill

By Nicholas Von Hoffman

Another backward-looking farm bill has passed Congress. It represents the usual admixture of sleeze bag compromises arrived at by the cynical, the selfish, and the weary. What the hell, it's only food.

As for administration leadership, there was none. When it comes to government Mr. Reagan's idea is no idea. Since he thinks Washington's function is to tax working people to buy ammunition, he does not apply himself to thinking how the government, which plays such a determinant role in our agriculture, might shuck off its outmoded approaches in favor of an agricultural policy better fitted for the resource-scarce 80s.

We are to go on forever, apparently, with what will soon become a ruinously expensive energy intensive form of farming. This is particularly bitter stuff since it was people like Mr. Reagan who correctly argued that lifting price controls on oil, thereby making it more expensive, would force people to conserve the stuff and use it with frugality. That can't really happen in agriculture, however, without government help. The reason is that since the Civil War most of our agricultural research and development has been paid for and guided by the government.

We have large scale, energy profligate farming, not only because that is the technology government monies have been used to develop, but also because the patterns of public subsidy have fostered this kind of agriculture. There was much to say for it in past epochs but it is self-destructive to persist in such wasteful ways now.

The energy poor eastern third of the nation, increasingly im-

Nicholas von Hoffman

poverished as it is becoming, cannot afford to eat this expensive food. According to a study commissioned by the Rodale Press, the publishers of Prevention magazine and Organic Gardening, in 1980 \$16 billion was spent to truck food hither and yon in the United States. (For more information write, The Cornucopia Project, 33 East Minor Street, Emmaus, Pennsylvania, 18049.) Shoppers in New York are paying anywhere from 5 to 15 cents more per pound for fresh vegetable bused in from California than they would if it were grown in their home state. More than three quarters of the food stuffs consumed in Pennsylvania are trucked in from the outside.

It's an insane system. Why ship a cabbage or a head of lettuce 3,000 miles when the same produce can be grown 200 miles away from the person destined to eat it? In truth, without derogating California and Texas, many fruits and vegetables are ideally suited for eastern cultivation.

To revive the once flourishing agriculture of the East means curtailing a number of government practices. "California agriculture," the Rodale people report, "which now supplies more than 40 percent of the country's fresh produce, has received a multi-billion dollar subsidy through federal water and irrigation projects. Estimates are that nearly 20 million acres of agricultural land in the East have gone out of production as a direct result of federally funded projects in the

west." That's a fine how-dee-do. First, the East with its declining standard of living contributes to the subsidy which then creates yet more costs for the same people to bear. That's like paying three times for a head of broccoli, and anyone who has bought such a vegetable of late knows how much even this common, easy-to-cultivate plant costs in a Pittsburgh supermarket.

For years and years knowledgeable people have been complaining that cash subsidies and the tax laws constitute the economic foundation of large, inefficient, corporate farming. The East doesn't get in on that because the terrain is unsuited to the gigantic tractors and combines used in the West. However, there is no reason that modern farm implements cannot be designed for fertile areas like Pennsylvania and New York. In fact, they already have been by our Japanese friends who have developed an efficient and abundant small scale agriculture with the right tools to do the job.

Another reason that millions of acres of eastern farm land have gone back to forest is that the necessary warehousing, distribution and marketing system doesn't exist. The assistance available to, say, the California and Florida citrus grower is not at the disposal of bee keepers and orchardists of New Jersey.

In a couple more years a new farm bill will have to be enacted. In the meantime the economic imbalances will grow, erosion will continue to do its devastating work, the water situation will worsen. We can try again then, hoping in the meantime that today's problem doesn't grow to be tomorrow's crisis.

Flynn mastermind of UNO's HPER department

Question: Name the person who spends up to 12 hours a day in the HPER Building, serves on countless boards and committees, coaches little league basketball and soccer plus finds ample time to spend with his wife and children.

Answer: Richard Flynn, Director of the UNO School of HPER.

Dr. Flynn came to UNO in 1969 from Middlesex County College in Edison, New Jersey where he was the Chairman of the Department of HPER and Director of Athletics. Flynn's first position at UNO was as Coordinator of Graduate Studies in HPER. In 1971, he became Chairman of the Department of HPER and in 1975, he took his present position as Director of the School of HPER and tenured Professor.

Flynn

Murray College, his Masters degree obtained from Ohio University and his Ed.D. from Columbia. He has been named the MacMurray College Alumnus of the Year and also received an award as the Outstanding Physical Education Graduate from MacMurray.

Although Dr. Flynn's professional life is extremely distinguished and time consuming, he certainly finds time for other activities. At the top of his list of favorite things to do is spend time with his wife Janie and his three kids Kerry 13, Trevor 10, and Tracy 8.

Dr. Flynn has coached his kids in the Eastern Nebraska Soccer Association, helped coach little league basketball, and has given seminars on youth sports at the YMCA.

Flynn has also served as President of the PTA and has been on the Mid-America Advisory Board of Boy Scouts of America and is currently on the Board of Directors of the Olympia Soccer Club.

As is evidenced by the new HPER Building, planning athletic facilities is Flynn's specialty. He has served as

a consultant on a variety of facility related projects for communities, universities, industry and military.

Flynn has also delivered formal facility presentations throughout the United States, as well as in Mexico, Germany, Italy and England. He served as co-editor and contributing author for a major revision of *Planning Facilities for Athletics, Physical Education and Recreation*, a book published jointly by the American Alliance for HPER and the Athletic Institute.

Dr. Flynn and his family are also very active athletically as well as being involved in community activities. The Flynn's enjoy participating in a variety of sports and also support many of Omaha's cultural events.

With all of Dr. Flynn's outstanding accomplishments and achievements, his most impressive quality is his devotion to UNO and its' students. Besides his monumental effort in getting the HPER facility approved and constructed, he has maintained a genuine interest in the student body and a concern for their college education and future. UNO is truly fortunate to have Dr. Richard Flynn.

Inside guide:

This fall UNO will add another club sport to its list, women's soccer. For all the details, read the story on page 4, you'll get a kick out of it.

UNO Officials Club provides needed experience for zebras-to-be. To find out more about the club see page 2.

CR children's excursions provide a little bit of everything for tots. To find out just what kind of fun is on tap, turn to page 3.

Surf's up! Campus Rec has a lot planned in the way of pool programs designed to keep your head above water. Check Aqua Notes on page 3 for all the details.

CLIP AND SAVE

HPER Building — Hours

GUEST HOURS

Friday 6:00 p.m. - 8:00 p.m.
Saturday 9:00 a.m. - 4:00 p.m.
Sunday 12:00 noon - 8:00 p.m.

UNO students, faculty, staff and spouses who possess a current UNO ID card or Campus Recreation Activity Card may sponsor two (2) guests each day during guest hours. SPONSORS MUST SHOW UP IN PERSON TO SPONSOR A GUEST(S). Spouses of UNO students, faculty and staff may purchase a Campus Recreation Activity Card for \$7.50 with proof of marriage, (i.e. check book or drivers license) and their spouse's current ID card.

FEE SCHEDULE

Adult Guest \$2.00 each day
Children under 18 years Free
(proof of age may be required)

BUILDING CLOSINGS/ SPECIAL HOURS

The HPER Building will be closed for the Easter Holiday, April 11. The Building will also be closed on Memorial Day, May 31. The hours for Spring Vacation, March 22 - 26 will be 7:30 a.m. - 8:00 p.m. and for the interim session, May 10 - June 5, 7:30 a.m. - 8:00 p.m.

OUTDOOR VENTURE CENTER

Monday 10:00 a.m. - 2:00 p.m.
Friday 10:00 a.m. - 2:00 p.m.
These hours are effective until March 5.

Equipment Check Out Procedure

Any equipment necessary to participate in the HPER Building or Fieldhouse can be checked out through the Central Issue Room (HPER 113). Presentation of your current UNO ID or Activity Card is required. Equipment may not be checked out on a Guest Pass or Courtesy Pass.

LOCKER AND TOWEL SERVICE

Lockers are reserved in the HPER Building for students, faculty and staff. To reserve a locker, a \$5.00 refundable deposit is required along with the presentation of your current ID or Activity Card. Final renewal date for the summer will be June 11. Items in lockers will be discarded and locker deposit forfeited if the locker is not renewed by June 11, 1982.

COURT RESERVATIONS

January 10 - April 1:

All reservations must be made by telephone.

Court reservations are made by calling 554-3232 between 2-4 p.m. daily for the next day. A sequencer reservation system has been installed to accommodate up to five phone calls at a time. This reservation system was installed for your convenience in order to cut down on waiting time for court reservations. To make the system work it is important that reservations are made by phone as opposed to coming over in person. Your cooperation is appreciated.

BUILDING HOURS

Monday - Thursday 6:30 a.m. - 10:00 p.m.
Friday 6:30 a.m. - 8:00 p.m.
Saturday 9:00 a.m. - 4:00 p.m.
Sunday 12:00 noon - 8:00 p.m.

BUILDING FAMILY HOURS

Friday 6:00 p.m. - 8:00 p.m.
Saturday 9:00 a.m. - 4:00 p.m.
Sunday 12:00 noon - 8:00 p.m.

OFFICE HOURS

Monday - Thursday 8:00 a.m. - 10:00 p.m.
Friday 8:00 a.m. - 8:00 p.m.
Saturday 9:00 a.m. - 4:00 p.m.
Sunday 12:00 noon - 8:00 p.m.

BUSINESS HOURS

Monday - Thursday 9:00 a.m. - 9:00 p.m.
Friday 9:00 a.m. - 7:45 p.m.
Saturday 9:00 a.m. - 3:45 p.m.
Sunday 12:00 noon - 7:45 p.m.

POOL HOURS

Monday - Thursday 6:45 a.m. - 8:00 a.m.
11:00 a.m. - 1:00 p.m. 5:00 p.m. - 8:00 p.m.
Friday 6:45 a.m. - 8:00 a.m.
11:00 a.m. - 1:00 p.m. 5:00 p.m. - 7:30 p.m.
Saturday 1:00 p.m. - 3:30 p.m.
Sunday 1:30 p.m. - 6:30 p.m.

Family Hours

Friday 6:00 p.m. - 7:30 p.m.
Saturday 1:00 p.m. - 3:30 p.m.
Sunday 1:30 p.m. - 6:30 p.m.

Children of UNO students, faculty and staff are eligible to participate in the HPER Building during designated Family Recreation Hours. CHILDREN MUST BE ACCOMPANIED BY THEIR PARENTS DURING THIS TIME. Parents must present their current ID or Activity Card in order for the children to use the facility.

IM floor hockey, flag football produce excitement

The fall semester of 1981 produced a lot of excitement in the intramural program at UNO. A large number of people participated in the fall sports, which ranged from table tennis to knee-tackle football, all trying for that coveted prize, the intramural champion t-shirt.

The season started out

with flag football and the Sig Eps out to retain the championship they won in 1980. However, a well organized team from Pi Kappa Alpha fraternity, lead by the running and passing of quarterback Dave Guy, beat the Sig Eps in the final game to claim the championship.

In co-rec football action, the explosive Independent

team knocked off all the challengers in the league to claim the title. The Independents were able to defeat the Rec-ing Crew 14-6 in the game that gave them the championship.

The First Annual Intramural Flag Football All-Star Game was played on October 19.

The Independent All-Stars won a hard earned 7-6 decision over the fraternity team as they scored a last minute touchdown and extra point to secure the victory.

Indoor Floor Hockey was introduced to the intramural program this year and was a tremendous success. Thirteen teams participated in the league and the Ex-Mavs took the crown with a victory over Lambda Chi in the championship game.

The Neat-O-Banditos took the top spot in the Commissioners Classic Basketball Tournament with a one point win over the Lords of the Rim.

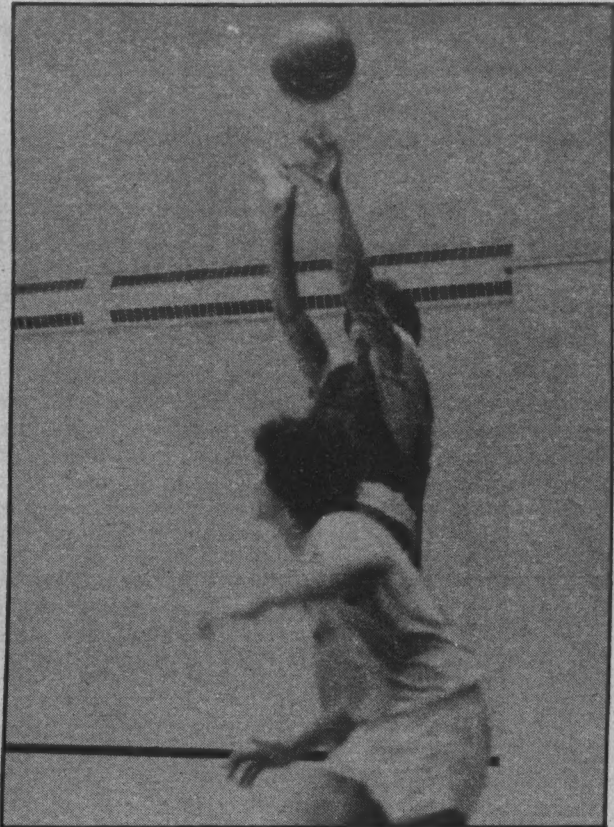

Former UNO Intramural Director Bert Kurth was on hand for the championship game and made a presentation to the winning team after the game.

Intramural champions were also crowned last fall in the following sports: knee-tackle football, tennis, racquetball, badminton, table tennis and wrestling. Be sure to check

Mark Lippett

Indoor Hockey players face off in intramural action.

Mark Lippett

Champions were crowned in 3 on 3 basketball last semester with 5 man action slated for the spring.

Officials club provides experience

If you've been wondering who all those people are wearing striped shirts during intramural games, wonder no more.

Many of the intramural officials are members of the UNO Officials Club, a group formed in the fall of 1981 to provide quality officials for the intramural program.

The club is off to a great start this year and membership is open to all interested UNO students. Offi-

ciating experience is not a pre-requisite for membership in the club.

However, an interest in officiating and a willingness to get involved is important.

Most members agree that the best thing about the club is that it provides a chance for new officials to learn the ropes from more experienced members.

For Mike Hahn, the current vice-president of the club, that was the primary reason for getting involved. He says, "I intend to use the experience I get here to start working City and High School games. Since you have to go out and get your own games in Nebraska, this can be a big advantage later."

The club publishes a newsletter which contains information as well as a "play of the week" and "questions from the

case book".

The club also brings in a guest speaker each month that is involved in officiating in some capacity.

President Bob Denney coordinates the newsletter and guest speakers and welcomes all suggestions from the campus community.

Officials Club meetings are held the first Tuesday of the month in the HPER Building. The club also organizes social activities for its' members along with the regularly scheduled meetings. So if you've been thinking about getting involved in officiating or just want to see how you look in stripes, be sure to come to the next meeting and start blowing your own whistle!

The first meeting of the spring semester will be held on Tuesday, January 19 in 102 HPER at 5:00 p.m.

AQUA NOTES

The Spring semester of 1982 will be highlighted by many different activities taking place at the HPER swimming pool.

The UNO Aquatics Club will host home meets January 16 against South Dakota State University, January 22 against Concordia College and January 29 against the University of Manitoba.

UNO's aquatic facility will also host the Metro Swimming Championships February 11, 12 and 13, the McDonald's Senior Championships February 19, 20 and 21, the Mid-Western All-Star Meet April 3, the Maverick 50 Meter Invitational June 4, 5 and 6 and the Regional Junior Olympics June 11, 12 and 13.

Instructional programs for the UNO community will also be offered this semester. The programs that are available are the Learn to Swim Program for children and Faculty/Staff lessons.

The Early Bird Swim Program will again be offered Spring semester. The program will run Monday - Friday, 6:45 a.m. - 8:00 a.m., through April 2.

POOL PROGRAMS

LEARN TO SWIM PROGRAM

Available to the children of UNO students with current ID's and UNO faculty/staff members with current Activity Cards.

Classes are on Saturday mornings only.

All classes are taught by Red Cross standards using Certified Water Safety Instructors.

Registration: February 1 - 28 at the Campus Recreation Office, Room 100 HPER Building.

Classes will start March 6, 1982 and will be held on the following Saturdays:

March 6, 13, 20, 27

April 4, 17, 24

May 1, 8, 15

*No class on April 10, Easter Weekend

Fee: \$12.50 Parent(s) must possess a valid UNO student ID or Activity Card.

Faculty/Staff Lessons

Swimming lessons for all levels of instruction will be taught on Tuesdays and Thursdays from 5:00 p.m. to 5:45 p.m. Dates will be:

March 9, 11, 16, 18, 30

April 1, 6, 8, 13, 15

Register at the Campus Recreation Office from February 1 - 28.

Fee: \$7.50

CR Childrens Excursions

... A little bit of everything

A pet show, a time machine, the Mayflower, and Santa Claus. What do all of these things have in common?

If you guessed that they were all part of the fall 1981 Campus Recreation Children's Excursions, you were absolutely right.

Stuffed animals as well as favorite pets took part in "The Zany Pet Show," which took place in September. Everyone was a winner as prizes were given for the smallest and largest pets, the curliest fur and the largest ears.

Mr. Harley Hardison came from the Westside High School Zoology Department and brought with him some zany animals of his own, including miniature turtles and a porcupine!

In October, the kids took a trip into the future during "Captain Rec in the 25th Century." Many of the participants dressed up in futuristic costumes, and prizes were given for

the most unique ones.

The air filled Moon Walk was set up and the kids were able to crawl inside and bounce around. They were also able to make clay models of futuristic things and take them home.

"The Mayflower Sails Again" was the title of our Thanksgiving program. The kids made pine cone turkeys and discussed the pilgrims first Thanks-

giving with the Indians. Various tag and relay games were played and treats of nuts, carrots and raisins were given as snacks.

The final event of the semester was our Christmas program titled "Mistletoe Magic." The kids made Christmas ornaments from glitter and construction paper.

Christmas cards were

also made to take home to family and friends. While Christmas caroles were loudly being sung, Santa Claus himself made a surprise entrance and stayed for the remainder of the program.

The Campus Recreation Children's Excursion program gives your child a chance to have fun as well as gain an educational experience. Join us in the fun!

Santa Claus got into the holiday spirit with an appearance at "Mistletoe Magic."

UNO Kickers claim 2nd-place

The UNO Maverick Soccer Club completed another winning season under the direction of coach Pete Kassay-Farkas.

This year's club was very young as evidenced by the nine freshman and ten sophomores seeing action for the Mavs.

The team which consists of primarily local athletes, compiled an impressive 16-7-3 record, finishing second in the Northern States Soccer Conference, behind rival South Dakota State University.

Many bright spots were seen in the play of the Mavericks. The offense started off sluggish but gained momentum in the middle of the schedule. The defense played tough throughout the year and supported goalie

Jim Houston, recording seven shutouts.

Individual honors went to Bernard Evans for Most Valuable Player, Mike Wascisin for Best Offensive Player, Mike Lanning for Best Defensive Player and Kevin O'Connor for Most Improved Player.

Several other players also received awards to acknowledge their outstanding play during the 1981 season.

Things are definitely looking up for the Maverick Soccer Club program. Next season plans include the formation of a women's team as well as the addition of two new coaches, R.K. Piper and Jerry Allen.

With the nucleus of this year's team returning, 1982 looks to be another banner year for the UNO soccer team.

Piper to coach women's soccer

Soccer, one of the fastest growing sports in the United States, is growing at UNO. For the first time ever, a women's soccer team will take the field in the fall of 1982 under the direction of former UNO player, R.K. Piper.

Piper, who played on three Northern States Soccer Conference championship teams at UNO believes that a women's team at UNO is a necessity because of the outstanding soccer being played on the high school level by the female players.

These players need a place to play after their school careers and the UNO program should provide that opportunity.

Piper would like to see the formation of a conference much like the Northern States Soccer Conference for the women to play in.

Besides playing for the UNO soccer team, R.K. Piper who is a Research Assistant for the UNO Center of Applied Urban Research, has played on five Nebraska State Senior teams.

Piper's plans for the women's team at UNO is to eventually play an entire inter-collegiate schedule which would include both home and away games.

An organizational meeting for the women's soccer team has been scheduled for Wednesday, January 20 at 7:00 p.m. in Room 102 of the HPER Building. Everyone interested in playing on the women's team should plan to attend the meeting or should contact R.K. Piper at 554-2773. See you there!

Campus Rec sports shorts

IM officials, umpires needed

Basketball Official Clinic To Be Held

A clinic will be held on Sunday, January 17 at 5:00 p.m. in Room 102 of the HPER Building. The clinic is mandatory for all those who are interested in officiating intramural basketball.

Basketball Managers Meeting

A pre-season meeting for all managers of intramural basketball teams will be held on Monday, January 18 at noon in Room 102, HPER. If the teams' manager is unable to attend, another player or representative of the team should attend.

Volleyball Officials Needed

Those persons interested in officiating Intramural Volleyball should plan to attend the officials clinic on Sunday, February 28. The clinic will be held in HPER Room 102 at 5:00 p.m.

Meeting For Volleyball Team Managers

The pre-season meeting for managers of intramural volleyball is set for Monday, March 1. The meeting will be held in Room 102 of the HPER Building at noon.

Attention Softball Umpires

A clinic will be held this semester for those people interested in umpiring intramural softball. Watch for the dates and times of the clinic to be announced.

Softball Captains Meeting

A meeting for the captains of all intramural softball teams will be held prior to the start of the softball season. The time and date of the meeting will be announced at a later date.

Racquetball Club Organizational Meeting

An organizational meeting for everyone interested in joining the racquetball club will be held Wednesday, January 20, at 8:00 p.m. The club is open to all UNO students, faculty and staff.

Racquetball Tournament at UNO

A racquetball tournament will be held on the HPER racquetball courts March 6-7. The tournament is open to everyone that wants to play. For more information contact Dan Wax at 554-2539.

Would You Like To "Be a Rec-Er Too?"

Would you like to be a member of the Rec-ing Crew, the Campus Recreation student staff? Come by the Campus Recreation Office, HPER 100, and fill out an application.

Officials Club Meeting

The first meeting of the UNO Officials Club will be held on Tuesday, January 19. The meeting is scheduled for 5:00 p.m. in Room 102 of the HPER Building.

Marty Hughes wins CR Turkey Trot run

The Third Annual UNO Campus Recreation Turkey Trot was held on Saturday, November 7 in Elmwood Park. This year's race attracted over 170 entries which was a record number for the event.

Turkey's were given to the winner's in 10 age categories for men and women. Other prizes were given to the youngest and oldest runners and also to participants who held "special numbers."

The overall winner of this year's race was Marty Hughes who barely edged Michael Jones for first place. Hughes' winning time was 15 minutes, 48 seconds with Jones right behind at 15 minutes, 49 seconds.

The top women's finisher for the second year in a row was former UNO track standout Barb Catlin. Catlin, a Graduate Assistant in Physical Education at UNO who toured the 3.1 mile layout in a time of 19 minutes, 25 seconds.

The youngest runner in this year's Trot was 5-year-old Nestor Goutierre, the son of UNO instructor Tom Goutierre.

Nestor ran the entire race along side his father and completed the distance in 37 minutes, 10 seconds which was good for 145th place overall.

Tom Goutierre couldn't quite keep up with his son and took home the prize as last place finisher.

The Turkey Trot was just one of the activities that made up the fall Campus Recreation Special Events calendar. The first event of the semester was "A Night With Captain Rec".

On that night the HPER Building stayed open to midnight and featured open recreation and special activities.

The other special event of the semester, which was co-sponsored with SPO, was the Maverick Daze Tug of War. This event was one of many that helped make the UNO homecoming weekend a tremendous success.

Taking the 'pause that refreshes' at registration are (l to r) freshmen Brad Johnson, undeclared, Jim Kuhn, education, Pat Finley, education, and Brent Craft, psychology.

Registration

Although the usual registration problems existed, traffic at entry points in the UNO Fieldhouse last week was much smoother than previous semesters because of the new entry ticket system.

Associate Registrar Bill Gerbracht

had said that he hoped the entry ticket would make registration easier. However, one complaint by Laurie Niday, a sophomore accounting student, was that the ticket was another piece of paper to carry to registration. She said she had a total of eight pieces of paper to bring to registration. "That was a lot," she said.

UNO APTS?

Living Space Scarce

By Matt Smolsky

Apartment complexes in the immediate-UNO area are nearly as scarce as parking spaces.

An abundance of apartment houses can be found in Dundee, but the only complexes close to UNO are Cross Winds, 929 S. 70th Plaza, and Capitol Court, 7070 Capitol Court.

Due to the congested parking situation on and near campus, a rumor had surfaced that new, low-rent apartments might be built close to UNO. A check with several developers and the Omaha City Planning Department showed this to be unsubstantiated.

"I've never heard of it," said N. P. Dodge, president of N. P. Dodge Co., of the rumor.

"There are a couple of problems," he said. "When you talk of low-rent, you are usually talking of federal subsidies." Dodge added that federal aid is not readily available.

"I don't know where you could find land to build," he said.

Jim Ecker, a city planner, said most of the land surrounding UNO isn't zoned for multi-family use. He said land north and east of campus is, for a substantial distance, strictly residential. West of 69th Street is primarily zoned for com-

mercial use, but can be used for apartments as well, said Ecker.

Betty Podrazo, manager of Cross Winds, said the percentage of college students at her complex has decreased with what she called a worsening economy and rising rental costs. She said approximately 30 percent of her tenants are students or teachers.

Rent at Cross Winds ranges from \$250-\$260 a month for a one-bedroom apartment, to \$300-\$310 for a two-bedroom apartment, said Podrazo. This includes gas, heat and water, she said.

Jim Bohart, a property manager for Byron Reed Co., said apartment complexes around UNO would not work because of the already high number of vacancies in existing apartment complexes. He said many people are sharing apartments and looking for rooms closer to downtown.

He said if the market was healthy, UNO would probably be a good area for development.

Lloyd Headlee, of N. P. Dodge's commercial sales department, said the market could improve for apartments near UNO, but that the high rent would dissuade people from moving in.

"I don't know if you can build cheap housing anymore," he said.

"VERNE'S VIEW'S"

By Verne McClurg
Director of UNO Campus Security

AND ... THEY'RE OFF!!

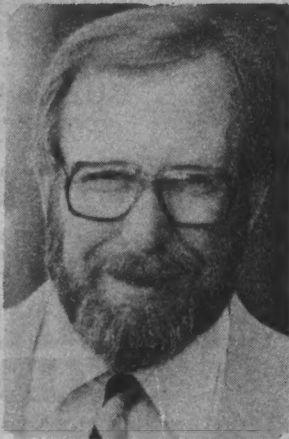

Yes, the second semester has begun with a flourish. The "oldtimers" know where to park and when they might be able to park on campus. After this first week has passed, and you sort out all your textbooks this weekend, take a few minutes to plan next week's parking schedule. Here are some helpful hints which may help you avoid various frustrations:

1. You do need a parking permit to park on campus. Student fees are: Student Permit-\$8.00; Night Only Permit (good only after 3:00 p.m.) \$6.00.
2. Parking permits may be obtained at the Campus Security Office-Eppley Administration Bldg., Room #100.
3. Parking tickets will be issued for:
 - a. Backing into a stall
 - b. Reserved/Carpool/Handicapped spaces
 - c. Faculty/Staff lots
 - d. No Valid Permit

4. If you do receive a parking violation for No Valid Permit, you may have one (1) cancelled when you purchase a parking permit.

Now, for those of you who may run into problems parking on campus there are several alternatives you may wish to explore:

AKSARBEN SHUTTLE BUS: Wind your way down to Aksarben and park (FREE OF CHARGE) in the large lot on the East side (enter

at 63rd and Shirley). Buses leave Aksarben and to UNO about every 15 minutes or oftener. Buses stop by the UNO Library, on Dodge St. North of Eppley Administration Bldg., and East of the Arts and Sciences Bldg. (formerly Administration Bldg.).

Buses run from 6:30 a.m. to 8:00 p.m., Monday through Thursday, and 6:30 a.m. to 6:00 p.m. on Friday.

CARPOOL: Need someone in your neighborhood to form a Carpool? Computer forms are available at the Campus Security Office. These forms will be fed into a computer, matched with others who have similar schedules, addresses, etc. You will receive a listing of names, addresses, and telephone numbers of individuals in your area who are seeking CARPOOL-mates.

Three or more individuals may obtain a Carpool Parking Permit (\$18.00 per semester). You will be authorized to park in an exclusive area on campus. Neat! You Bet! No more hassles. Drink an extra cup of coffee at home, wash the dishes, sleep later, etc. **YOU DON'T HAVE TO WORRY ABOUT FINDING A PARKING PLACE.**

Tidbits

—Campus Security has a new **EMERGENCY NUMBER**. Dial X2911 from on campus to report fires, injuries, etc.

—WATCH this column, every week, to find out what's new and different in the area of parking. Tell your friends. Talk to people at coffee, in class, at work, walking across campus, find out where they park on campus. You won't get any credits toward your degree or any grades for doing this. Your reward is **KNOWING** versus **NOT KNOWING**. See you next week!

5. Judging by past semesters, parking lots will fill-up about 8:30 a.m. and open about 11:00 a.m. to 12:00 noon.

6. Watch for signs designating **SUB-COMPACT PARKING LOTS**. To qualify, your vehicle must be no longer than 180" and no wider than 70".

Parks Board delays action on Elmwood Park

By Gary DiSilvestro

The Omaha Parks and Recreation Advisory Board has postponed action on a proposal that would remove the two roads that cut through the main portion of Elmwood Park.

The "Renovation Policy for Elmwood Park" was prepared by the Elmwood Park Task Force, a group appointed by former Omaha Mayor Al Veys in 1978 to study and recommend park improvements.

The task force is com-

prised mostly of area neighborhood leaders and includes Barbara Wright, the aide to Mayor Mike Boyle who prepared the city's proposal on UNO parking, and Greg Peterson of the city Planning Department.

The most controversial portion of the study, which Wright and Peterson presented to the board, is the removal of the two north-south roads that cut through the lower portion of the park. Such action would be done over a three-

year period.

The plan also calls for renovation of the upper road that cuts through the park golf course.

City Councilman Walter Calinger said he wondered if the reason the lower roads were being removed and the upper road kept was based on who uses the roads.

"Students use the lower roads fairly often," said Calinger, "and downtown workers use the upper road when they commute. I hope we aren't making

any decisions based on who would be affected."

Calinger said the park closing is not something that must be done immediately, and that the UNO parking situation is the pressing issue. Some neighborhood leaders have said privately that alternative student parking should be found prior to the closing of the park roads.

UNO Student President/Regent Florene Langford said she thought students should have been asked to serve on the task force.

Task force member Frances Batt said UNO administrators were contacted but showed no interest in serving on the study group. Nobody remembered if students were ever asked to serve.

Langford sent a letter to Boyle on Dec. 15 requesting the placement of 12 student government officials on the task force. As of Sunday, Langford

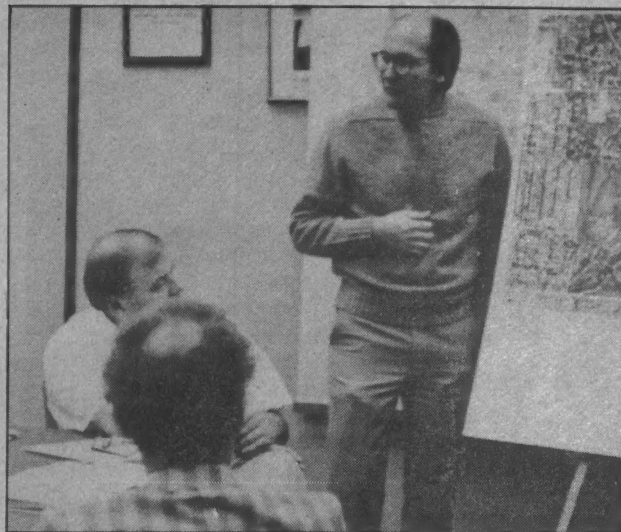

photo by Gary DiSilvestro

City planner Greg Peterson explains task force proposal to parks board.

said she had not received a response to the letter.

Arts and Sciences Student Sen. Don Carlson said the proposal may be a "good idea for the park" but that he is concerned about the effect the closing would have on traffic flow in and out of UNO.

The board decided to

hold off any decision until the members could conduct an on-sight inspection of the park.

The Gateway had not been informed of the Parks Board meeting until Omaha City Councilman David Stahmer telephoned to ask if a reporter would be present.

UNO FOOD SERVICE

We at UNO Food Service would like to welcome everyone back this spring with a special welcome to our new students.

Once again we are geared up to serve you what we feel is the best in a well balanced and tasty menu.

The following information will give you an idea of what we offer, when and where. We hope you will enjoy our facilities this year, and would like to wish you the best in the coming school year.

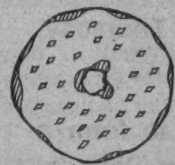

MAVERICK

MAVERICK DINING ROOM
Open 7 a.m. to 6 p.m. Monday thru Friday, 2nd floor, Milo Bail Student Center

Breakfast: Serving a full line of hot breakfast foods from 7 a.m. to 10 a.m. daily.

'Four Potters' displayed at art gallery

An invitational exhibition of the works of "Four Potters," will be shown at the UNO Art Gallery Jan. 14 through Feb. 5 from 8 a.m. to 5 p.m. Monday through

Friday.

The public is invited to the preview opening tonight from 7:30 to 9 p.m. at the gallery.

Functional ceramic pieces by Bunny McBride,

Wally Schwab, Henry Serenco, and Joe Zeller will be exhibited.

The stoneware and porcelain works include plates, bowls, covered jars, planters and other pieces that are useful as well as pleasing to the eye.

These potters believe that everyday use of their works enables the user to enjoy and appreciate the piece to the fullest extent.

This exhibit is sponsored by the College of Fine Arts.

There is visitor parking in front of the gallery at 133 South Elmwood Park.

Lady Mavs win two on the road

The Lady Mav basketball team completed a successful road trip to Utah last week, winning two of three games from Division I schools Utah, Utah State and Weber State College.

UNO, showing some signs of the long plane trip to Salt Lake City, dropped the opening game of the series to the Utah 87-56 Jan. 5.

The Lady Mavs, battling foul trouble the entire game, fell behind 47-21 at intermission and could not pull back into contention.

Lisa Linthacum scored 15 points and grabbed 10 rebounds to lead UNO, while Mary Henke and Julie Hengemuehler added 10 points each.

Kirsten Sullivan, who severely sprained her ankle prior to the trip, was held to just two points while seeing limited action.

Following one day's rest, the Lady Mavs traveled to Logan, Utah, and came away with a 89-79 overtime victory over Utah State Jan. 7.

UNO, thanks to the shooting of Linthacum and a rejuvenated Sullivan, jumped out to 49-38 halftime lead. But the Aggies staged a second-half comeback, pulling ahead 77-72 with just five minutes remaining.

At that point Linthacum and Sullivan took over, scoring two points each. With one second remaining in regulation, Hengemuehler sank a free throw to send the game into overtime.

The Lady Mavs again took control in overtime, outscoring Utah State 12-2 to pull out the victory.

Sullivan, who came into the contest averaging 11 points a game, exploded for 29 points and Linthacum added 21 more to lead the Lady Mavs.

UNO hooked up with Weber State last Friday night in yet another overtime contest.

The margin was tighter, however, as the Lady Mavs edged the Wildcats 66-65 in a game played at the Dee Events Center in Ogden, Utah.

The Lady Mavs trailed 29-28 at the half in the see-saw battle, but rallied to build a nine-point lead with seven minutes left.

The wildcats came battling back, however, grabbing a 60-58 lead with just 35 seconds remaining.

But UNO's Mary Beaver connected on a 22-foot jumper with seven seconds remaining to tie the score at 60.

In overtime, the Lady Mavs battled

the Wildcats basket for basket until Renita Samuel stole the ball with 30 seconds left and drove the length of the court for a layup, putting UNO ahead 66-65.

The Wildcats then tried to work the ball around in the final seconds, but their shot at the buzzer was off the mark.

"We really worked hard for those two victories," said UNO Coach Cherri Mankenberg. "I'm really proud of the way our players performed."

"Julie (Hengemuehler, who finished the game with 14 points to pace the Lady Mavs) did a great job and Lisa (Linthacum) was a real workhorse for us out there tonight."

The Lady Mavs, 8-3 prior to last night's contest with Emporia State, will meet North Dakota Friday at 5:45 in the UNO Fieldhouse.

SDU snaps UNO streak; rank in peril

The UNO Mavericks saw their unprecedented nine-game winning streak and probably their No. 2 national ranking shot down Saturday night by the South Dakota Jackrabbits.

With the score 56-56, South Dakota scored the winning basket to make it 58-56. South Dakota ended its four-game losing streak.

The Mavericks had dropped behind with 5:30 left. UNO's comeback was fueled by a 15-foot jump shot by 6-3 senior Rick Keel, and a basket and four throws by 6-9 senior Henry Riedel.

With 24 seconds to go, South Dakota's Mark Tetzlaff, a 6-6 Freshman, put in a rebound shot to give the Jackrabbits the lead for good.

It was the second of two games the Mavs played over the weekend.

Friday night against Augustana was an equally tight game. The lead changed hands seven times and the score was tied eight times.

UNO won 64-62 when sophomore Dean Thompson sunk a 16-foot shot from the baseline with three seconds left.

Freshman starter Terry Sodawasser played with UNO in both game while suffering from a sprained ankle.

From Dec. 27-29, UNO went to the North Central Conference holiday basketball tournament at Sioux Falls, S.D. They were ranked 10th in NCAA Division when they started. They left with a No. 2 rating after having beaten the fourth ranked North Dakota Sioux 74-66.

The championship was expected to go right to the wire, but the Mavs took command in the second half.

Thompson was the high scorer for the Mavs with 15 points, and led the UNO scores for the tournament with 44. Guard Rickey Suggs had 12 points against the Sioux, as did Sodawasser, who was also the leading rebounder with six.

The Mav's first tournament test was against the University of South Dakota Coyotes. Head coach Bob Hanson said the team followed its game plan all the way. He thought zone defense would do the trick, and it did.

Sodawasser and Thompson led the Mavs to the 69-54 win with 16 points each. Keel and Riedel each had 10 points, and Riedel was also the leading rebounder with seven.

In their second game the Mavs beat a stubborn Augustana team 57-55.

UNO plays North Dakota Friday and North Dakota State Saturday at the Fieldhouse. Saturday will be "Greek night" when fraternities come out to support the team. Both games will start at 8 p.m.

Sports

Leave it to Beaver to lead Lady Mavericks

By Ernie May

The loss of three starting seniors would have a devastating effect on most basketball teams. But the UNO Lady Mavs have learned to overcome that loss thanks, in part, to the leadership and play of senior Mary Beaver.

Through the first 11 games of the 1981-82 season, however, Beaver has stepped in to help guide the Lady Mavs to a 8-3 record, including victories over Creighton and Central Missouri State, both Division I teams.

"Beav is an integral part of our offense," said Mankenberg. "She is a smart player and has a good head on her shoulders. Her teammates also have a lot of confidence in her and that's important."

The 5-foot-6, York, Neb., native came to UNO following a sparkling career at York High School where she led her squad to the 1977 Class B Nebraska State Basketball Championship, and earned all-state and all-conference honors in basketball and volleyball in 1977 and 1978.

Although recruited by several schools in Nebraska, Kansas, Texas and Iowa, Beaver said the switch to college basketball gave her some anxious moments.

"Cherri really took a chance on me," said Beaver. "I didn't attend the tryout camp so she really didn't know what I

Beaver

could do. Coming from a Class B school I also wondered if I could compete with the Class A athletes. Now I know that I can."

Despite her success at UNO, basketball is not Beaver's first love — softball is. During the summer she coaches the York women's fastpitch softball team.

Besides basketball and school, where she maintains a 3.5 grade point average, Beaver is also involved with the UNO chapter of Volunteers For Youth, a group which matches troubled high school kids with athletes. In her second year with the

program, she had become one of seven campus directors.

"When they started the program at UNO the national director stayed at our apartment and I naturally became interested," said Beaver. "I come from a big family (eight brothers and sisters) and I missed it, so I got involved. It seemed like fun."

"I always had a lot of fun with the girl I was paired with. Being with her gave me a chance to be a kid again. She lives in Colorado now, but we still write to each other," she said.

Beaver has also developed a reputation as a prankster during her years with the Lady Mavs. One time, after visiting her parents, she returned to school sporting her sister's cast on her arm.

"I went into the coach lying through my teeth, saying the reason the cast was split in half was because my arm was too swollen. She (the coach) bought it, but later I went back and told her the truth." "It's kind of bad that I have a reputation like that (of being a prankster)," she said, "but I like to have fun."

Top wrestler stranded at home

By Henry Cordes

When the UNO wrestling team's motor home left for the Air Force Academy Tournament in Colorado last Thursday, Ryan Kaufman wasn't on it.

Kaufman, UNO's top wrestler in the 142-pound weight class and defending NCAA Division II national champ, was forced to stay home and nurse the ribs that he injured in practice a week earlier.

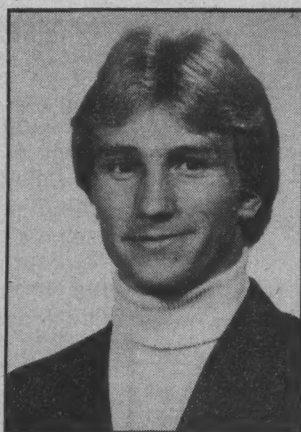

"Injuries are part of wrestling," Kaufman said. "I can't waste this time; I have to try to stay in shape and do more work on my technique."

"The injury just might turn out to be a benefit because it will give my body a chance to rest and keep me from peaking early. I have to look at this positively."

Though Kaufman wasn't happy with the prospect of sitting out part of his senior season, it is nothing new for him. Despite all his accomplishments in wrestling, Kaufman has spent more than one-fourth of his college eligibility off the mat.

As a freshman at the university of Minnesota, he earned a varsity spot, only to tear cartilage in his knee, undergo surgery, and miss nearly the entire season. After transferring from Minnesota to UNO last year, Kaufman, by NCAA rules, had to sit out the first semester.

In the fall of 1978, Kaufman enrolled at Minnesota on a wrestling scholarship.

Kaufman

He placed third in the Big Ten championships as a sophomore and qualified for the Division I nationals. He went 2-2 in the tournament, but more importantly, gained experience which helped him win a national title with UNO a year later.

Kaufman's decision to transfer to UNO came just two weeks before he was due to start his junior year at Minnesota. He had come home to Omaha to spend the last month of his summer. After two weeks, he said he knew he couldn't go back.

At Minnesota he was one of 67,000 students. Kaufman said he had 4,000 students in one class that was held in the auditorium used for commencement. Lonely and homesick, he said he was ready to try a smaller school.

Consideration for his wrestling career also figured in his decision. He had practices with the UNO team before and liked the school's program.

"And the coaches here are . . . good motivators and technicians. They keep practices from getting monotonous, so I'm enjoying wrestling more. I don't even think about the clock anymore."

Kaufman also said that his national championship last year was a big boost to his confidence.

Thus far this season he has lost only one match. The defeat came to Iowa's Lenny Zeleski, the top-rated 142-pounder in Division I, at the Northern Iowa Open.

Kaufman is currently rated No. 1 in Division II and third in Division I.

Beyond this season, Kaufman said he plans to stay at UNO as a graduate assistant, finish his degree in recreation, and continue to wrestle year-round in open meets. He said his ultimate goal is to wrestle at the Olympics.

"It's a dream of mine to be in the Olympics," Kaufman said. "It takes so much commitment. It's not whether you have the talent, it's how much you really want it."

Mavs take second place in tournament

UNO wrestlers grappled their way to a second place finish in the Air Force Invitational tournament Saturday with the outstanding help of Seniors Ted Husar and Bill Wofford.

The Division I Minnesota Gophers won the meets 74.5-61.5.

Husar, an NCAA All-American, defeated Steve Martinez from Minnesota 5-3 in the 150-pound division.

Wofford 158 pounds, overwhelmed Tim Jones of North Dakota State, 3-1.

Phil Pisasale at 118 and Dan Goering at 126 both finished third.

Sophomore Curt Ramsey took the place of senior Ryan Kaufman, who was at home with injured ribs suffered during practice last week. Ramsey finished fourth.

Saturday's tournament found UNO beating Southern Illinois—Edwardsville for second place in a surprising turnabout from Friday's match with SIE, in which UNO was beaten, 19-17.

"It was a close, tough match," UNO coach Mike Denny said of Friday's contest. "And it was a disappointing upset, but we gritted our teeth and came back."

Results of Friday's match: Pisasale beat Steve Stearns, 5-0, while Roger Hefflinger beat Maurice Brown 6-2. Ramsey out-manuevered Walter White, 10-0. Wofford beat Lewis Reed 3-1. And heavyweight Rigatuso beat Al Sears 10-1, but according to Denny, "he just couldn't quite pin him."

The Mavericks are looking forward to this Friday's match with Northern Colorado at home. Kaufman is expected to be back in shape in time for the contest.
